PRESIDENT'S MESSAGE

Today we celebrate 60 years of rugby administered by the Sub Union. Two generations of players and administrators are represented here today to re-live former games; renew friendships formed on and off the field and above all to enjoy that bond of fraternity that only rugby can develop.

The Sub Union's development is studded with players who at provincial and All Black level have enhanced this grand national game. Our thoughts today go back to men like Jack Cummings, the Bowler brothers, who donated Bedford Park to rugby and cricket; to Dr Mackereth, rep coach and Waikato selector; to Charlie Barry, with us today, a stalwart of rugby and to all those administrators throughout the 60 years who have so enthusiastically served the interests of rugby. To them, we of today say — Thank you.

As president it has been my privilege, with the help of an enthusiastic and hard-working committee to guide the building of the new stand at Bedford Park. Today's opening has been made possible by the tremendous support of rugby followers — men and women — who have contributed financially and otherwise so that now Matamata has a rugby headquarters second to none in rural areas.

To these people one and all we say: Thank you.

To those of you — the players and administrators of the future — may you enjoy these facilities at Bedford Park to the full but cherish and guard the principles of this grand game — RUGBY.

ERIC JACKSON.
